

Starlight Investments Celebrates Earth Day 2021

Toronto – April 22, 2021 – Starlight Investments (“Starlight”) celebrates Earth Day 2021.

Since its inception in 1970, Earth Day continues to evolve far beyond a single day of recognition each April 22. Starlight is proud to support this ongoing movement and we are pleased to highlight some of the company’s most recent initiatives:

- **Alveole Community Beehive Program:** Through partnerships with third-party property managers and community members, bee colonies have been stationed at multiple multi-family and commercial buildings. The beehive colonies are essential to our sustainability efforts as they impact our food production and ecosystems.
- **Community Gardens and Balcony Garden Kits:** This project aims to provide fresh, local food to surrounding communities and provides a solution to current longer-term food shortage issues.
- **Starlight Investments’ 2020 Environmental, Social and Governance (ESG) Report:** Starlight continues to incorporate and augment the application of ESG principles in its interactions within the real estate industry and with communities and stakeholders. Further information regarding Starlight’s ESG strategy can be found by visiting https://www.starlightinvest.com/images/sustainability/Starlight_ESG_2020_Report.pdf
- **Sustainability at Starlight:**

“As we celebrate Earth Day 2021, sustainability continues to be a focus of our business strategy and compliments our approach to asset management. Starlight is proud of our contribution to this commitment and we continue to support opportunities for a sustainable future,” stated Glen Hirsh, Chief Operating Officer of Starlight Investments.

About Starlight Investments
