TORONTO, November 7, 2019 – True North Commercial Real Estate Investment Trust (the “**REIT**”) (TSX: TNT.UN) is pleased to announce it has entered into an agreement with a syndicate of underwriters led by CIBC Capital Markets and Raymond James Ltd. (collectively, the “**Underwriters**”) to sell, on a bought deal basis, 10,120,000 trust units of the REIT (“**Units**”) at a price of \$6.92 per Unit (the “**Offering Price**”) for gross proceeds to the REIT of approximately \$70 million (the “**Offering**”). The Offering is being made under the REIT’s short form base shelf prospectus dated June 1, 2018. The terms of the Offering will be described in a prospectus supplement to be filed with Canadian securities regulatory authorities. An entity controlled by Daniel Drimmer, the REIT’s President and Chief Executive Officer, will be purchasing approximately \$3.5 million of Units under the Offering.

The REIT has also granted the Underwriters an option (the “**Over-Allotment Option**”), exercisable for a period of 30 days following the closing of the Offering, to purchase up to an additional 1,518,000 Units at the Offering Price for additional gross proceeds of approximately \$10.5 million, to cover over-allotments, if any.

The Offering is expected to close on or about November 18, 2019 and is subject to certain conditions including, but not limited to, the approval of the Toronto Stock Exchange (“**TSX**”) and other regulatory approvals.

The REIT has entered into two conditional purchase agreements and intends to use the net proceeds from the Offering to acquire two high-quality Class “A” office properties located in the Greater Toronto Area, Ontario (the “**Potential Acquisition Properties**”) from two arm’s length vendors. Should the REIT elect to waive the conditions and close on the Potential Acquisition Properties, it will acquire a total of 621,300 additional leasable square feet for a combined purchase price of approximately \$205.3 million, a combined occupancy of 98.6%, a weighted average remaining lease term of 5.8 years and 46.8% of revenue generated from credit-rated tenants. The Potential Acquisition Properties are expected to be accretive to the REIT’s funds from operations (“**FFO**”) and adjusted funds from operations (“**AFFO**”) per Unit.

Upon the successful closing of the acquisition of the Potential Acquisition Properties, the REIT’s portfolio will have 4.8 million leasable square feet, be 97% occupied, have a weighted average lease term of 4.7 years and 76.7% of its revenue generated by government and/or credit-rated tenants.

Key metrics of the Potential Acquisition Properties are as follows:

Location	Square Feet	Weighted Average Lease Term (Years)	Occupancy	Credit-Rated
GTA, ON	368,800	4.8	98%	57.5%
GTA, ON	252,500	7.2	100%	31.0%
	<b>621,300</b>	<b>5.8</b>	<b>98.6%</b>	<b>46.8%</b>

The REIT is currently conducting due diligence in respect of the Potential Acquisition Properties and there can be no assurance either or both of the Potential Acquisition Properties will close. The Offering is not conditional on the closing of either of the Potential Acquisition Properties, and in the event either or both of the acquisitions do not close, the net proceeds are expected to be used to fund future acquisitions.

### Non-IFRS measures

Certain terms used in this press release such as FFO and AFFO are not measures defined by International Financial Reporting Standards ("IFRS") as prescribed by the International Accounting Standards Board ("IASB"), do not have standardized meanings prescribed by IFRS and should not be compared to or construed as alternatives to profit/loss, cash flow from operating activities or other measures of financial performance calculated in accordance with IFRS.

FFO is a measure of operating performance based on the funds generated from the business of the REIT before reinvestment or provision for capital needs. The REIT calculates FFO in accordance with the guidelines set out by the Real Property Association of Canada ("Realpac"). Management considers this non-IFRS measure to be an important measure of the REIT's operating performance.

AFFO is an important performance measure to determine the sustainability of future distributions paid to holders of Units. In calculating AFFO, the REIT makes certain non-cash adjustments to FFO such as: amortization of fair value mark-to-market adjustments on assumed mortgages, amortization of deferred financing costs, straight-line rent, instalment note receipts and non-cash compensation expense related to Unit-based incentive plans and a deduction of a reserve for capital expenditures, tenant inducements, and leasing costs. The method applied by the REIT to calculate AFFO differs from the definition of AFFO as defined by Realpac. Management considers these non-cash adjustments important in determining the amount of sustainable cash available to fund future distributions to Unitholders.
